

MARITIME AND PORT AUTHORITY OF SINGAPORE

PORT MARINE CIRCULAR  
NO. 5 OF 2025

17 March 2025

Port and Shipping Community

**PRICE REVISIONS FOR WATER SUPPLIED TO VESSELS IN PORT**

1 This circular supersedes Port Marine Circular No.04 of 2024.

2 PUB, Singapore’s National Water Agency, had announced that water prices will be revised in two phases on 1 April 2024 and 1 April 2025, to reflect the rising costs of producing and supplying water<sup>1</sup>. This is intended to encourage water conservation to achieve a sustainable growth in water demand. The cost of producing and supplying water has increased substantially since the last price revision in 2017 and PUB will continue to take active cost mitigation measures. Businesses are encouraged to adopt water conservation practices as well.

3 To reflect the second phase of the price revision on 1 April 2025, the Water Charges, Waterborne Tax (WBT) and Water Conservation Tax (WCT) in respect of water supplied to vessels in Port of Singapore will accordingly increase as follows, with effect from 1 April 2025:

Price Components	Price for water supplied to vessels via pipelines (Current)	Price for water supplied to vessels via pipelines (Revised)
		From 1 April 2025
Water Charges <sup>2</sup> (\$/kilolitre)	7.11	7.35
Water Conservation Tax (\$/kilolitre)	1.02	1.14
Waterborne Tax (\$/kilolitre)	1.00	1.09

<sup>1</sup> A Port Marine Circular was issued on 19 February 2024 to inform the port and shipping community on the price revisions for the two phases.

<sup>2</sup> This refers to the water charges rate for the first 50 kilolitres of water supplied.

<b>Total (\$/kilolitre)</b>	<b>9.13</b>	<b>9.58</b>
-----------------------------	-------------	-------------

For further details on the Water Charges, please refer to <https://www.mpa.gov.sg/finance-e-services/tariff-fees-and-charges/others/supply-of-water>.
